ADA Components Guide

- DURABLE GALVANIZED FINISH
- INDEPENDENTLY TESTED, MEETS OR EXCEEDS SAFETY STANDARDS
- MULTIPLE BASE AND WALL MOUNTING OPTIONS
- COST EFFECTIVE SYSTEM FOR NEW OR EXISTING RAILING SYSTEMS
About ADA Railings

The Americans with Disabilities Act, ADA, is the comprehensive civil rights law designed to prohibit discrimination against people with disabilities. Public and private businesses, state and local government agencies, private entities, offering any public accommodations, services, transportation and utilities are all required to comply with this law. The ADA law emphasizes handrail installation because handicapped persons use them to maintain balance, transfer weight and prevent falls. Our handrail system is the answer to a barrier free design and are required in both new and existing buildings.

KEE ACCESS Components

- ADA law compliance can be attained with “add-on” components to established railing systems
- Can be powder coated or grip taped to increase visibility and eliminate “cold to touch”
- “D” style returns eliminates clothing getting caught
- Our internal PROJECTS support team can provide individual applications and solutions to achieve ADA compliance
**KEE ACCESS Basic Assembly**

How these components work together to give you the most durable and flexible ADA compliant railing system available.

**Fittings by Function**

**Coupling**
- 514-7: Internal
- 18-7: Internal

**Elbows**
- 515-7: 90° Split
- 520-7: 90° Solid
- 554-7: Variable Angle
- 565-7: Wall Mounted End Return
- 567-7: End Post Handrail Return

**Bases + Flanges**
- 561-7: Wall
- 565-7: Wall Mounted End Return

**Handrail Wall Bracket**
- 475-40: Aluminum Mounted
- 518-7: Galvanized Inset
- 570-7: Galvanized Mounted

**Tees/Sockets**
- A10-748: Add-on Single Handrail 1 1/4"
- 10-840C: Single Handrail Capped
- 10-848: Single Handrail
- A10-848: Add-on Split Single Handrail 1 1/2"
- 26-840: Twin Handrail
- 26-840C: Twin Handrail Capped
- 555-8: Top Fix Rail Assembly

**Miscellaneous**
- 84-848: Upright Top Cap
- 508-7: Gap Washer
**Pipe Choices**

**Galvanized Steel**
Schedule 40 and Schedule 80; size 1/4” to 2” IPS; nominal mill lengths of 21’ cut to your projects’ exact length requirements

**Aluminum**
Alloy 6105-T5 with an anodized finish; size range 3/4” to 2” IPS; nominal mill lengths of 12’ and 24’ cut to your projects’ exact length requirements

**Powder Coating**
Durable, corrosion preventing polyester coating applied to already galvanized/anodized products; available in any RAL color

**Antimicrobial Coating**
Defense against the growth of potentially harmful invisible bacteria and fungi; this powder coating can be applied in a wide range of RAL colors

**In-fill Panels**
Panels come in a variety of materials, sizes, and finishes. The standard 4” x 4” welded wired mesh is available in sizes up to 4’ wide by 8’ long. Smaller openings are available (2” x 2” or 1” x 1”). Material can be provided with a galvanized or powder coat finish, or in bare stainless steel. Virtually any custom configuration or material option is available.

**Toeboards**
Our unique design does not require any drilling on site or in the shop. A slot on the back of the toeboard accepts a bolt head which prevents the bolt from spinning during assembly. Upright hardware and splice kits for corners and straight sections are also available. Toeboard comes in 24’ lengths or can be custom cut.

**Modules**
Pre-assembled modules for a simple and quick assembly; provides a constant barrier height. Available in a variety of sizes and styles to suit individual project requirements.

**Grip Tape**
Improves grip of existing handrail. Grip Tape has a glow-in-the-dark feature for added safety. Yellow and black coloring is also available.

**Hi-Traction Covers**
Improves footing and helps to prevent slips and falls. Suitable for indoor and outdoor use. Variety of grip options, colors, sizes, and materials. Glow-in-the-dark and custom printing available.
